

CONVOY TECHNOLOGIES

Protecting Your Fleet Is Our Priority

C1200A-S Complete System

Founded in 2008, Convoy Technologies is a leading supplier of integrated vehicle surveillance systems for the fleet industry. Years of research and development make Convoy Technologies' products the most dependable and high-quality on the market. With a specialization in back-up cameras, blind spot cameras, and sensor systems, Convoy Technologies has the ability to integrate cameras and sensors into one LCD monitor for the most accurate surveillance and vehicle protection. With the highest dedication to performance, quality and research, no other vehicle surveillance system comes close.
